

Amendments to the Claims:

This listing of claims will replace all prior versions and listing of claims in the application.

Listing of Claims:

1. (Currently Amended) A shoe or boot comprising:
 - an inner moisture transfer material;
 - a thermal nonwoven composite formed from a nonwoven to which added with
open cell foam material is added;
 - a thermal insulating layer; and
 - an outer moisture transfer material waterproofed by a waterproof film.
2. (Original) The shoe or boot according to claim 1, wherein the open cell foam is hydrophilic and breathable.
3. (Original) The shoe or boot according to claim 1, wherein at least two of the four layers defined therein are attached to each other by lamination.
4. (Original) The shoe or boot according to claim 1, wherein at least two of the four layers defined therein are attached to each other by mechanical bonding.
5. (Original) The shoe or boot according to claim 1, wherein the outer moisture transfer material includes a fabric that is structurally knitted or woven to repel water.

6. (Original) The shoe or boot according to claim 1, wherein the open cell foam has reversible thermal enhanced properties.

7. (Original) The shoe or boot according to claim 1, wherein the nonwoven has reversible thermal enhanced properties.

8. (Original) A shoe or boot comprising:

an inner moisture transfer material; and

a thermal nonwoven composite formed from a combination of synthetic fibers and an open-cell foam material.

9. (Original) The shoe or boot according to claim 8, wherein the thermal nonwoven composite has reversible enhanced thermal properties;

10. (Original) The shoe or boot according to claim 8, further comprising an outer layer attached to the thermal nonwoven composite, the outer layer comprising encapsulated synthetic fibers.

11. (Currently Amended) A shoe or boot comprising:

an inner moisture transfer material;

a thermal nonwoven composite which includes an open-cell foam material and
has ~~having-reversible~~ enhanced thermal properties;

12. (Original) The shoe or boot according to claim 11, wherein the nonwoven has been combined with an open cell foam that has reversible enhanced thermal properties.

13-18. (Canceled).
